

HILLS & DALES METROPARK

TRAIL KEY

Color-Coded Hiking Trails

- Adirondack trail = 1.46 miles
- Inspiration Point trail = 0.4 miles

PARK FEATURES

- DOGWOOD POND**

Park Founder John Patterson's original design for Hills & Dales included a scenic pond at what is now Dogwood Camp. Though lost in subsequent years, the historic pond is now beautifully restored and features an Adirondack-style overlook shelter and benches, picturesque waterfall and a trail loop around the pond that is part of the 1.4-mile Adirondack Trail.
- PATTERSON MONUMENT**

John H. Patterson, co-founder of National Cash Register Company, believed education, recreation and outdoor exercise were the pillars of good health. A memorial to Patterson was erected in the 1920s and stands in the heart of Hills & Dales to honor his leadership. The bronze and granite monument by Italian sculptor Giovanni Morretti places Patterson and his favorite horse Spinner at the top of the hill where he often rode on the bridge paths. Allegorical figures representing prosperity, progress, industry and education are also included to represent Patterson's influence on the community.
- PAW PAW CAMP**

Groups can enjoy the renovated picnic area that now features modern restrooms and a new shelter with a fireplace and grills as well as a trailhead and rain garden. These features were created with sustainable design in mind; the shelter roofs and boardwalk are made of 100 percent recycled materials.
- "STAGED GATES" SCULPTURE**

A testament to the fact that Hills & Dales is now a "work of art," the Staged Gates sculpture, installed by renowned artist Mary Miss in 1979, is an appropriate frame for this MetroPark. Staged Gates creates an illusion of procession by arranging a sequence of narrowing wooden gates that act like theater wings.
- WETLANDS BOARDWALK**

Take a stroll through a high-quality forested wetland along the Adirondack Trail Boardwalk connecting Dogwood Pond to the trailhead at Paw Paw Camp. This handicapped-accessible boardwalk allows visitors a chance to view wetland vegetation, such as skunk cabbage and marsh marigold, and various migratory birds.
- WHITE OAK CAMP**

The Nature Play Area at White Oak Camp allows kids to learn about the natural world around them in an unstructured environment. Children can use the honeysuckle frameworks located in the area to build their own shelters out of natural materials. Adjacent to the Nature Play Area is a standard playground. White Oak Camp also features two shelters, a fully updated restroom facility and a trailhead.
