FIVE RIVERS FOUNTAIN OF LIGHTS

The Five Rivers Fountain of Lights is created by five water jets housed in concrete towers and a powerful center geyser. The towers straddle the confluence of the Great Miami and Mad rivers just east of the Riverside Bridge and shoot 2,500 gallons of water per minute toward the center of the river. The central geyser rises from the jets to a majestic 200’ in the air. Covering 395,000 square feet across an 800’ diameter, the Five Rivers Fountain of Lights is one of the largest fountains in the world.

FOUNDERS POINT

Can you name the five rivers of Five Rivers MetroParks? Confirm your best guess by wandering down to the five-sided pavilion at the edge of the Great Miami River, which features each of the names around its cap. This pavilion marks the location of where the first settlers of Dayton arrived by boat on April 1, 1796.

GARDENS

RiverScape MetroPark features beautiful gardens that include hanging baskets, life-size flower pots and beds overflowing with annuals, perennials and tropical plants. Many of the plants are labeled with botanical and common names so that you can be inspired for your own home garden. Our garden creates an oasis along the river in downtown Dayton. We invite you to pull up a chair and enjoy the beauty.

PAUL LAURENCE DUNBAR WALK

RiverScape pays tribute to the works of native Daytonian poet Paul Laurence Dunbar. Several of his poems are etched in stone at the top of the staircase at the west end of the park.
