| Drinking Water (Seasonal availability) | Access Trail       |
|  | Hopewell Earthwork |

## PARK FEATURES

### HOPEWELL EARTHWORK

This earthwork is actually a hilltop enclosure constructed nearly 2,000 years ago by the Hopewell Culture. It is a long, winding mound of raised earth about 3 to 4 feet high. Now covered in deep forest, it is easy to miss, but fascinating to those interested in history. This enclosure is known locally as Carlisle Fort.

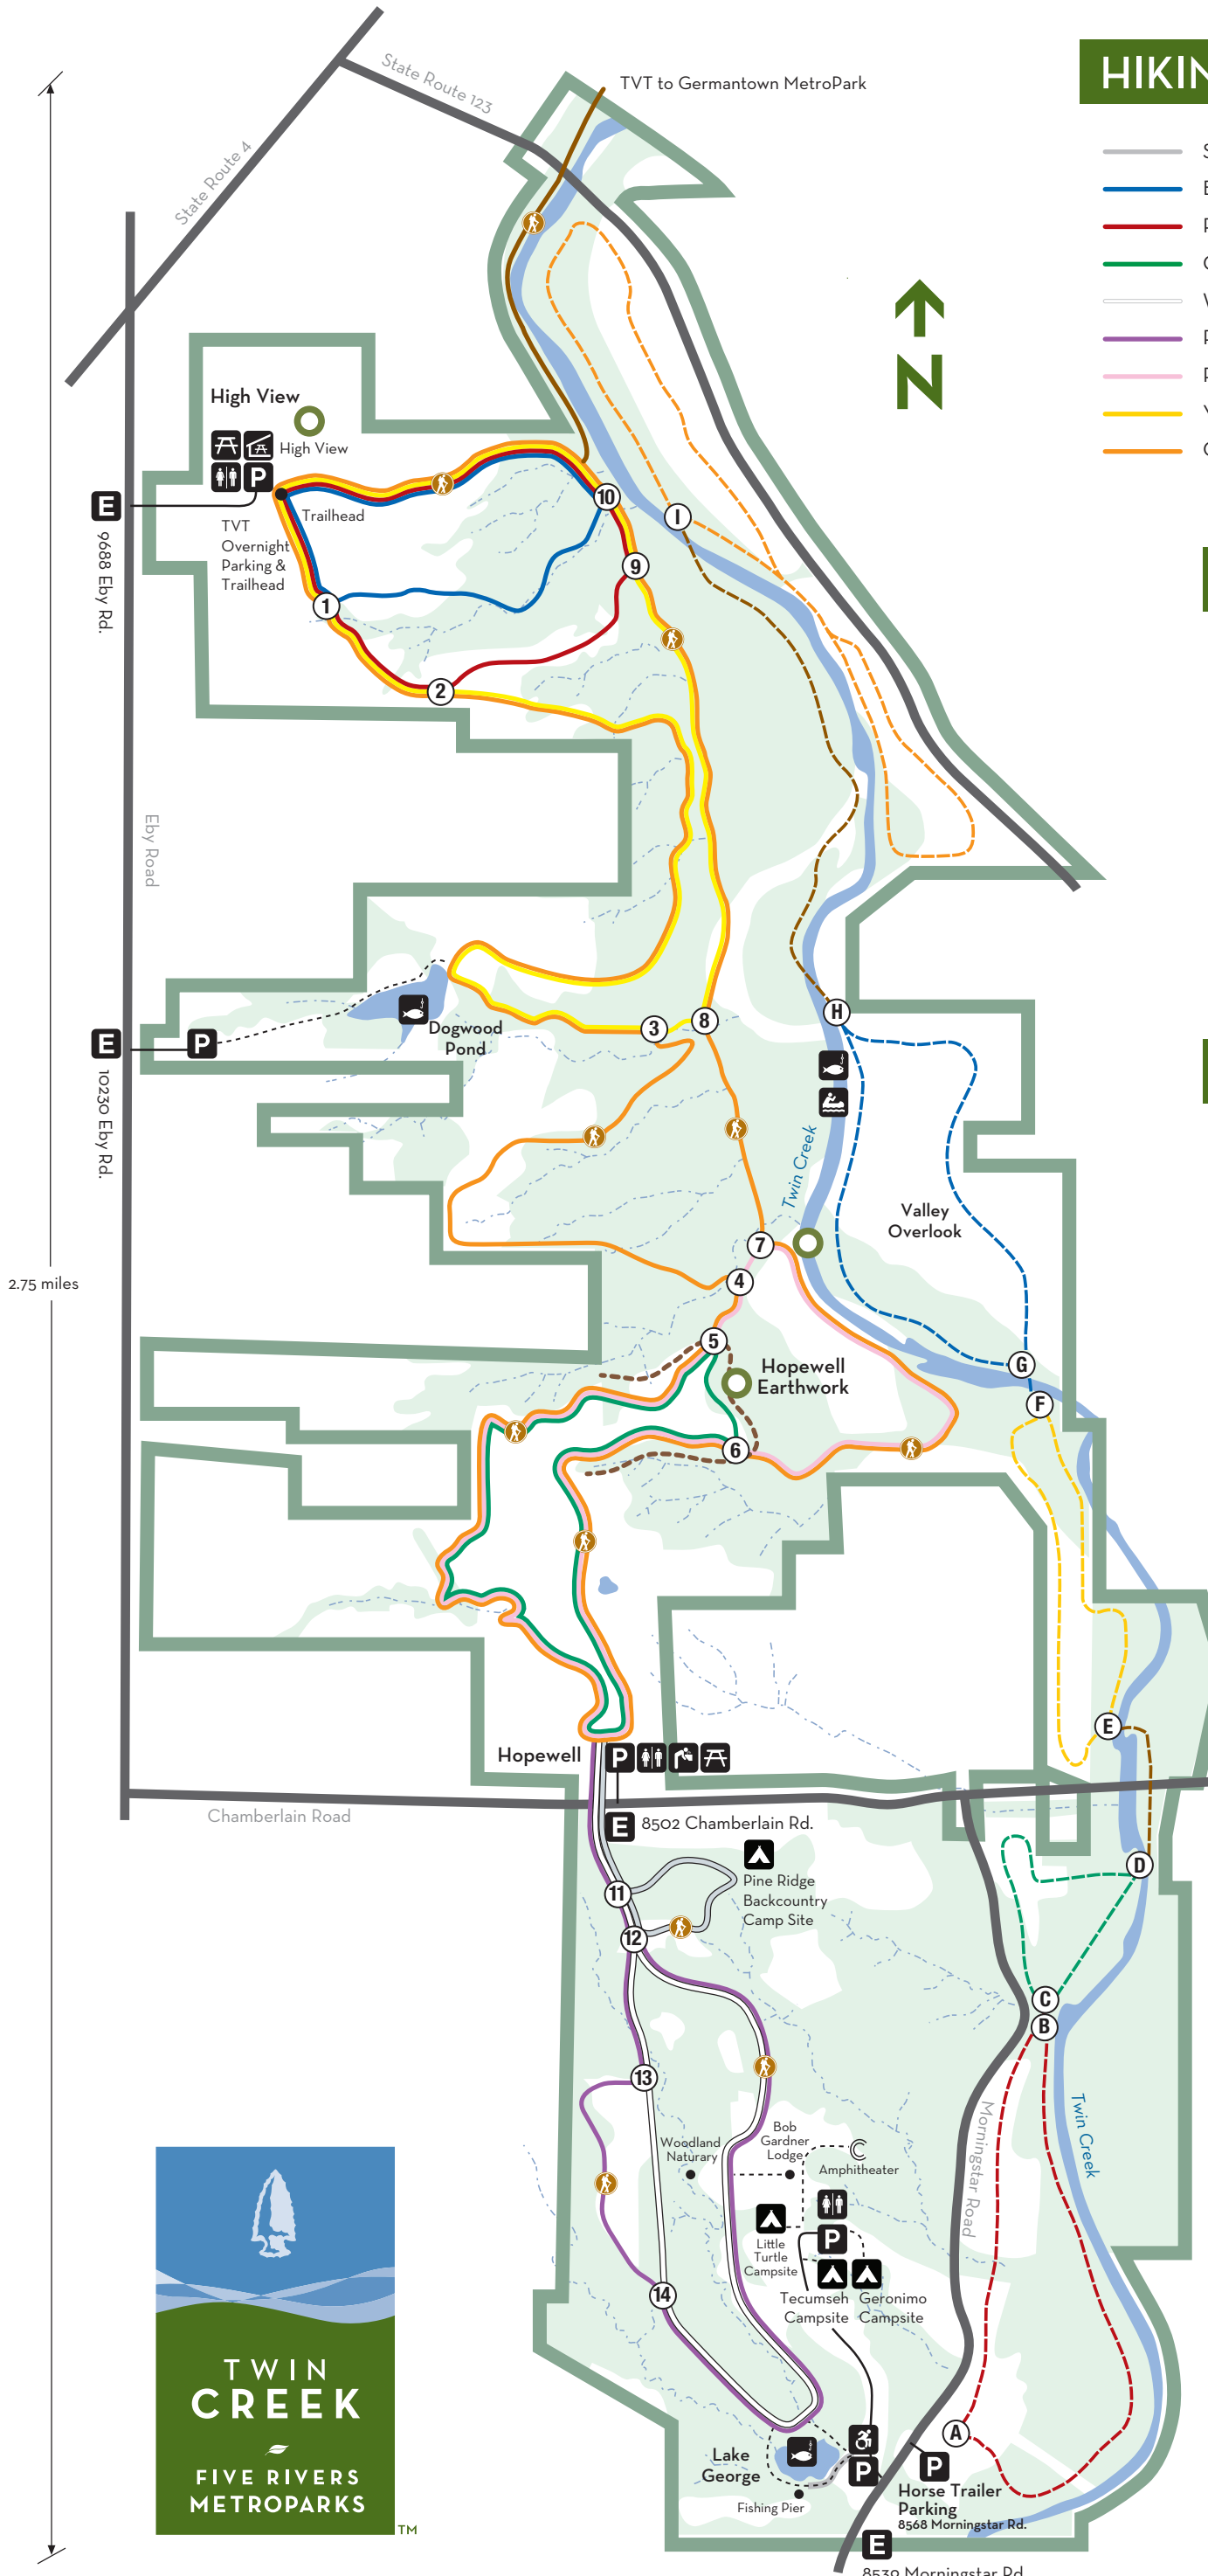

### HIGH VIEW

Park at the Eby Road parking lot and venture a short distance east across the picnic area to discover a spectacular view of the Twin Creek Valley, including Germantown, Carlisle and Miamisburg. Rare grassland birds such as northern harriers, bobolinks and grasshopper sparrows make this hilltop their home.

### TWIN CREEK

The Twin is a beautiful and critical habitat. The Twin Creek watershed is 46.2 miles long with drainage of 316 square miles. Twin Creek is special because the quality of its fish, macro-invertebrate and physical habitat are among the highest of any Ohio stream. To learn more about the efforts to protect the Twin Creek, watch our video at [metroparks.org/twincreek](http://metroparks.org/twincreek).

Five Rivers MetroParks Supports the Americans with Disabilities Act by making reasonable accommodations in serving individuals with disabilities. Programs and facilities are offered on a non-discriminatory basis. If accommodations are needed please call 937-275-PARK (7275) at least one week in advance. Five Rivers MetroParks is an Equal Opportunity Employer.
