PARK FEATURES

WOLF CREEK

Wolf Creek supports a variety of wildlife and offers scenic views as it flows through Wesleyan MetroPark. Both great blue herons and green herons have been spotted foraging in the creek, and trees show recent signs of beaver activity. The creek also supports a variety of fish, including spotfin shiners, smallmouth bass, largemouth bass, and rainbow, green, fantail, and Johnny darters. Popular scenic viewing spots include the pedestrian bridge over Wolf Creek, the paved pathway beneath the railroad crossing, and the gravel bar along with creek reached from the hiking trail on the west side of the creek.

Wesleyan MetroPark is the site of Adventure Central, an innovative partnership among MetroParks and Ohio State University Extension and 4-H Youth Development. Adventure Central is a dynamic, youth education center that offers exciting programs during after-school hours and the summer, with an emphasis on nature and science. Youth are engaged in hands-on learning and receive assistance with homework, as they interact with staff and volunteers.
