

TAYLORSVILLE METROPARK

PARK FEATURES

BUCKEYE & NORTH COUNTRY TRAILS

The Buckeye and North Country Trails join the Great Miami River Bikeway at Old Springfield Road and follow it south through the park. The Buckeye Trail completely encircles Ohio and is more than 1,400 miles long. The North Country Scenic Trail extends into seven states and will be the longest continuous hiking trail in the United States when completed. Both trails provide long-distance hiking and link historical and scenic features of the state and surrounding areas.

MIAMI-ERIE CANAL

Running parallel to the Great Miami River through Taylorsville was the Miami-Erie Canal. This hand dug "big ditch," completed in 1845, took 20 years to construct. A great achievement for its day, it opened the state for commerce by connecting the Ohio River at Cincinnati to Lake Erie at Toledo with a navigable channel. Remnants of the canal can still be found on the north and south sides of the dam. Five hundred feet north of the dam stands the foundation of an aqueduct. These impressive structures were large, water-filled bridges over rivers that allowed canal boats to cross.

TADMOR

Follow the Great Miami River Bikeway north of the dam about 1.25 miles to the site of Tadmor. In the 1800s, this small village was Montgomery County's busiest crossroad, standing at the intersection of the Miami-Erie Canal, National Road, Dayton-Michigan Railroad and the Great Miami River. Today, remnants of this once bustling community have been identified with a historic marker as a significant site along the original route of the National Road.

ROCK OUTCROP

A short walk from the CCC reservable shelter north of the dam leads to a huge pile of Brass fir underlying Massey shale, leaving the stone above unsupported. This process repeated itself in 1996, when an additional 100 tons fell, and continues today. Walk up the stone stairs and examine the small caverns created by water traveling through the stone.

GREAT MIAMI RIVER BIKEWAY

The Great Miami River Bikeway bisects the park from north to south. Stroll, run, bike or skate along more than seven miles of paved trail. Travel to the north end and discover where the village of Tadmor once stood. Go south from the dam and stand on an observation deck far above a tall grass prairie.

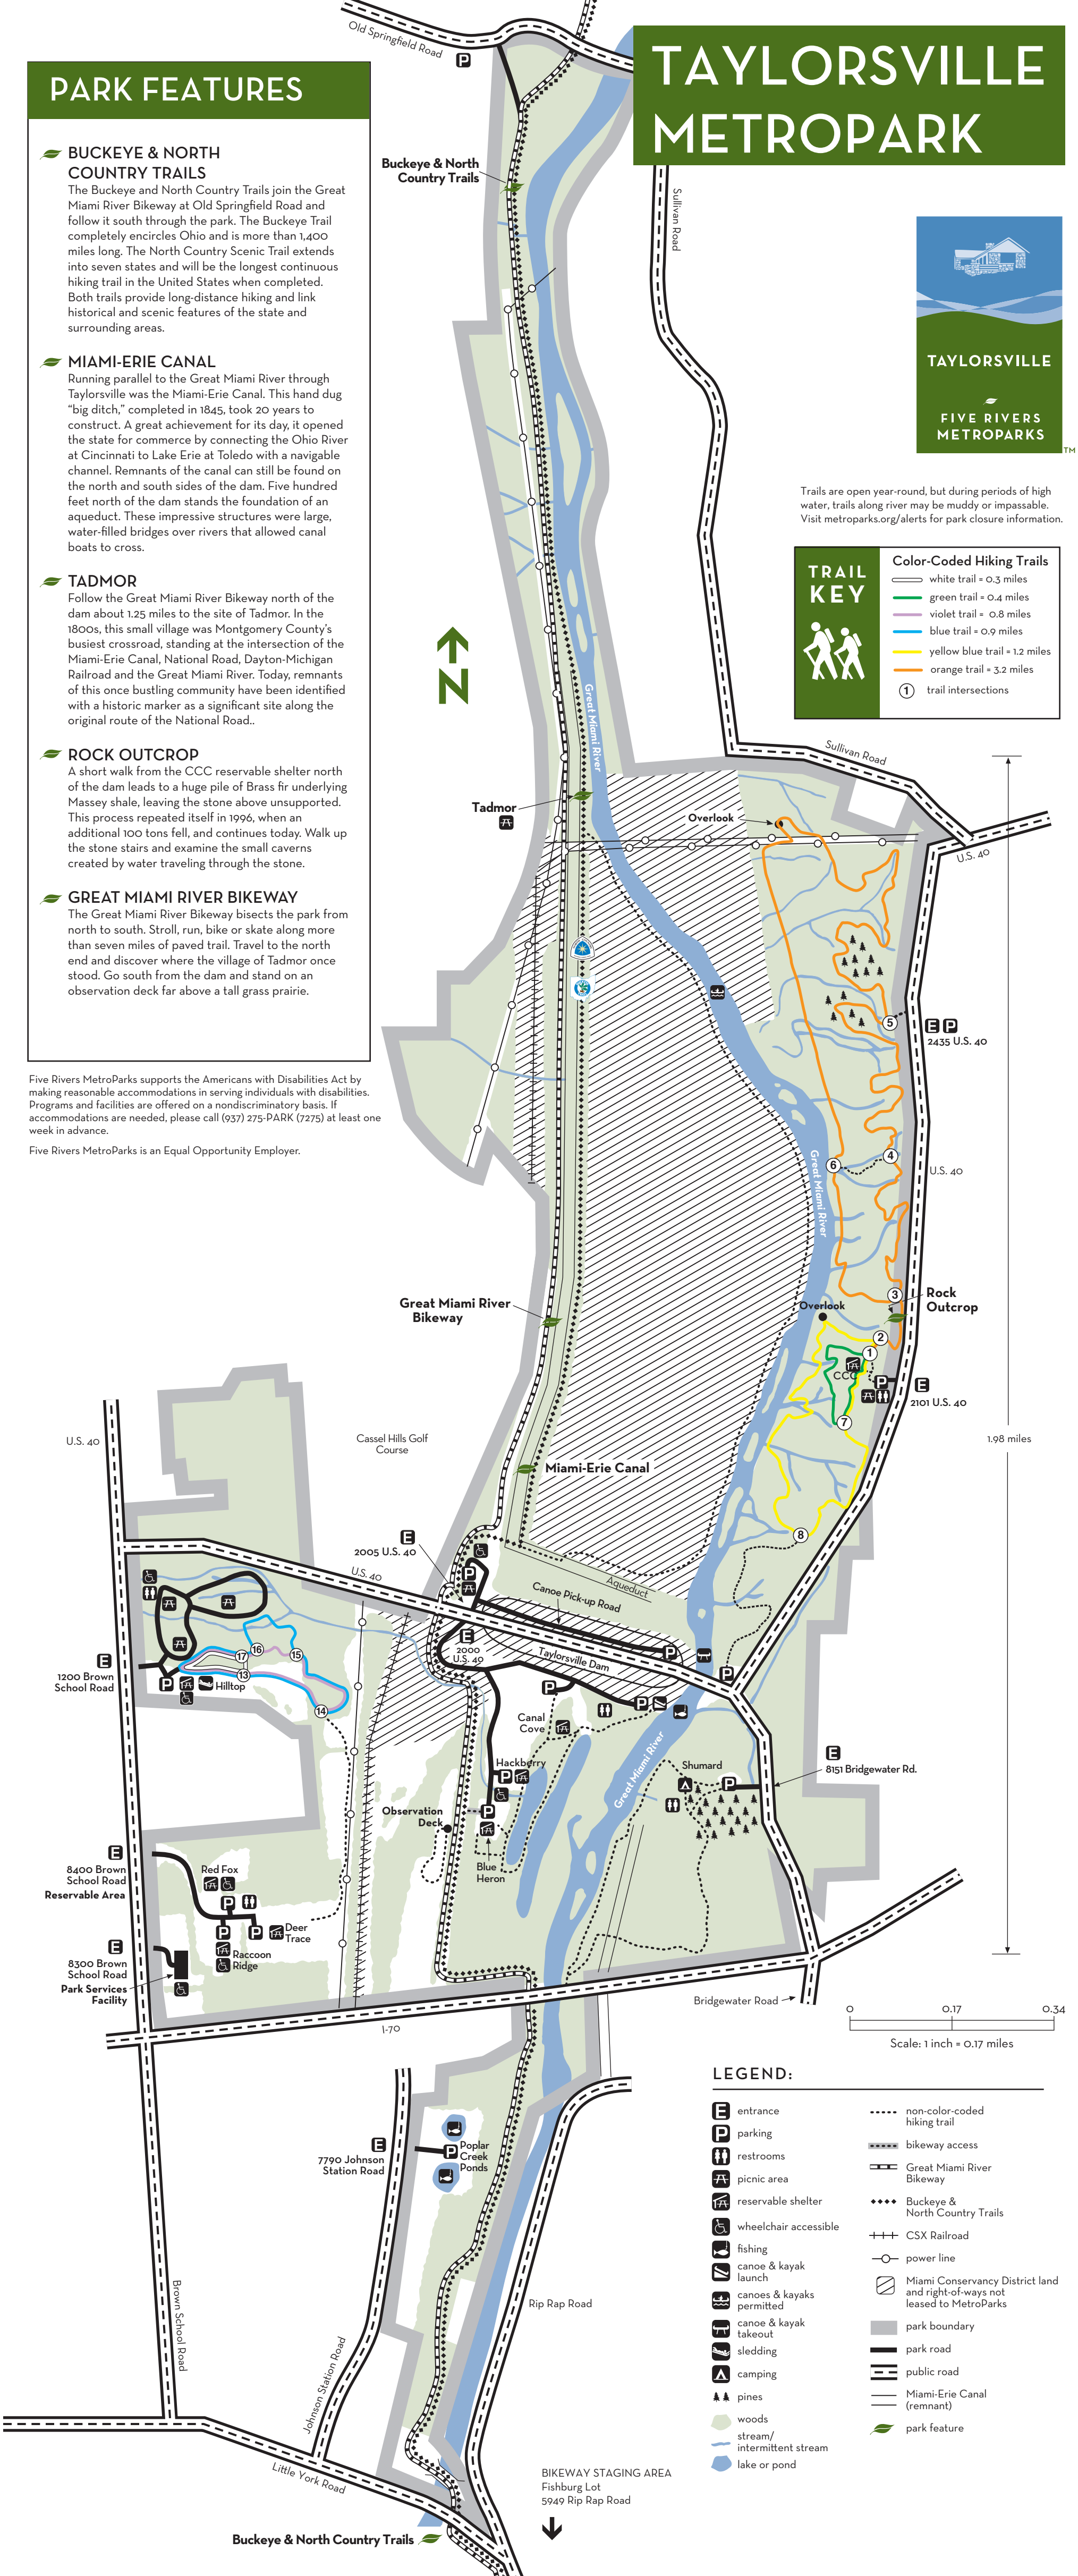

Trails are open year-round, but during periods of high water, trails along river may be muddy or impassable. Visit metroparks.org/alerts for park closure information.

TRAIL KEY

—	white trail = 0.3 miles
—	green trail = 0.4 miles
—	violet trail = 0.8 miles
—	blue trail = 0.9 miles
—	yellow blue trail = 1.2 miles
—	orange trail = 3.2 miles
