

Hike and Seek: Colors

Use the color wheel during your hike to discover the many colors found in nature. What are the four seasons? Hike during different seasons to find different colors along the trail. Keep track of the colors you find and your answers to the questions below in a nature journal.

- Are all tree leaves the same color green, orange, red or brown?
- Can you find a rock with more than one color? What colors do you see on rocks?
- Can you find more flowers with yellow blooms or purple blooms? What other colors do you see in flowers?
- Can you find insects with more than one color? What colors do you see?
